Subject: Students & Young professionals - ideas for ICoTA Exhibition & Conference 2024

Lucas,

Sorry it took me so long to follow up on the discussion we had a while ago..

Here are some ideas on how to engage & attract young professionals (YP) to our main ICoTA event next year, and to help the Industry attract the best talents:

1. Career Pathways Fair – type of setting (representatives from different service lines: CT, WL, SL, tools, equipment OEM, Coiled Tubing OEM, Service companies, Operators) with the goal to help the YPs understand different career paths, roles, product lines, and to establish direct contacts.
2. Career Mentors Fair (meet & greet those from the Industry who have volunteered to be the personal guides / mentors or even coaches). Ideally, these mentors should be the ones volunteering for the Career Pathways Fair. Note that would require some commitment from the ICoTA folks. I think, we should have a reward program for ICoTA mentors / coaches going forward.
3. Hiring / Internship Fair (supported by HR recruiters) attached to the Career Pathways Fair.
4. ePoster or podium presentations of intervention - related projects (no paper required). The presenters should receive ICoTA certificates they could use to support their resumes.
5. Resume review / writing workshop.
6. Basic Well Intervention Technologies training (primers) 1-2 hours each. The attendees should also get some sort of certificates for their resumes.

These are just high-level overviews that may require specifics. Please, let me know if/how/when you wish to discuss these.

Best Regards,
Alexander
